## Best Incident Management Solution

**Onemind Services, LLC - Cloudmylab**

*"Cloudmylab's approach to incident management is proactive, precise, and built for speed. By isolating environments through air-gapped infrastructure and integrating advanced monitoring tools, their platform empowers organizations to detect, respond to, and recover from security incidents with minimal disruption. The Judges at The Cloud Security Awards were especially impressed by Cloudmylab's ability to reduce operational recovery times and support root cause analysis - delivering incident resilience that's as robust as it is rapid."*
